In the Title:

(Currently Amended) ~~PREFIX-BASED SYSTEMS, METHODS AND ACCESS TOOLS FOR ACCESSING INFORMATION ON THE INTERNET~~
SYSTEMS OF PREFIXED DOMAIN NAMES, AND DIRECTORIES OF DIFFERENTLY-PREFIXED DOMAIN NAMES

Page 1, first full paragraph under "Background"

(Currently Amended) One way that users access content on the Internet (or World Wide Web) is when they already have been told the domain name address (such as noting the address www.worldsawaymusical.com on a "Worlds Away" compact disk or promotional beach towel) (such as noting the address on a "Worlds Away" compact disk or promotional beach towel) and they decide to access the website via the address. However, in many situations the user does not know a specific website domain name address, or even that a website may exist that may be of interest to him or her. However, in many situations the user does not know a specific website domain name address, or even that a website may exist that may be of interest to him or her.

Paragraph bridging pages 5-6

(Currently Amended) According to the invention, a unifying prefix that has been established preferably is announced. Announcing a unifying prefix is not particularly limited, and there may be mentioned press releases, submissions to school newsletters and alumni magazines, paid advertisements, written correspondence, etc. An exemplary unifying prefix system according to the invention is shown in Figure 3, wherein the system comprises establishing a unifying prefix (100) and announcing the unifying prefix (102), further including obtaining a domain name in the form www."unifying prefix"- (200) and posting/linking (202) to content on the website accessible via the www."unifying prefix"- . The content may be newly posted, or the content may be on an existing operational website and a link provided. For an existing operational website (such

as www.worldsawaymusical.com); its accessibility may be increased by obtaining one or more domain names each including an appropriate unifying prefix, and directly routing accesses via the unifying prefix domain names to the existing operational website.

Paragraph bridging pages 7-8

(Currently Amended) The Internet domain name “www.urgentpatent.com” was purchased and website content was posted. Subsequently, “urgent” was identified as a prefix and a cooperating series of Internet dot com domain names was purchased including:

—— www.urgenttrademark.com

—— www.urgentcomputer.com

—— www.urgentITC.com

—— www.urgenttechnology.com

—— www.urgentsecurities.com

—— www.urgentcopyright.com

“urgenttrademark”, “urgentcomputer”, “urgentITC”, “urgenttechnology”,
“urgentsecurities” and “urgentcopyright”.
